

Castrol Chain Lube Racing

Motorcycle Chain Care

Description

Castrol Chain Lube Racing is a spray lubricant developed and tested for high performance and racing applications.

It allows a significant reduction of friction, increasing performances and chain durability, even during demanding riding.

Application

Castrol Chain Lube Racing is suitable for use on sealed and unsealed chains fitted on both on- and off-road bikes. For further detail see the Product Performance Claim section of this sheet.

Advantages

- Forms a long lasting, dry-type semi transparent lubricating film with outstanding resistance to high speed fling and water wash-off.
- Special anti-wear technology ensures minimal chain elongation and sprocket wear under high load and speed operation.
- Low friction coating on all chain components reduces operating temperature extending chain's useful life.
- Offers superior protection from metal corrosion resulting from humidity and salt.

Typical Characteristics

Name	Method	Units	Typical
Product Code			15230
Colour, Visual	Visual	-	White / Cream

Product Performance Claims

Chain Lube Racing is suitable for standard O-ring, X-ring and Z-ring type chains fitted on motorcycles from leading European and Japanese Manufacturers

Storage

All packages should be stored under cover. Where outside storage is unavoidable drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should not be stored above 60°C, exposed to hot sun or freezing conditions.
